

DIRECTORS' COMMENTARY

TRADING PERFORMANCE

Group turnover for the six-month period to 31 July 2004 increased from Lm12,773,000 to Lm13,501,000, an increase of 5.7% on the comparable period last year.

Group profit after tax and minority interest amounted to Lm504,000. The main factors affecting Group profitability during the period were:

- an improved performance on imported products as a result of the acquisition of the food importation and distribution business of Law. Quintano & Co. Ltd.;
- the removal of levy tariffs in May 2004 which had a negative impact on local production for an initial period;
- a decrease in overall sales volumes of beverages due to lower temperatures in the key summer months of June and July 2004;
- an initial set-up cost of the acquired business of Guido Vella Cash & Carry.

We expect the results of the second half of the financial year to 31 January 2005 to be an improvement over the same period last year due to the increase of the Group's business in the importation segment which is less seasonal than that of the Group's traditional business.

DIVIDENDS

The Company paid to the Ordinary shareholders an interim dividend of Lm90,000 on the 29 April 2004, as well as a final dividend of Lm514,000 on the 30 June 2004. These dividends have been paid out of tax exempt profits, resulting in a total net dividend to the Ordinary shareholders of Lm604,000, equivalent to 2c4 per share.
